

Dokumentasi Singkat Backend

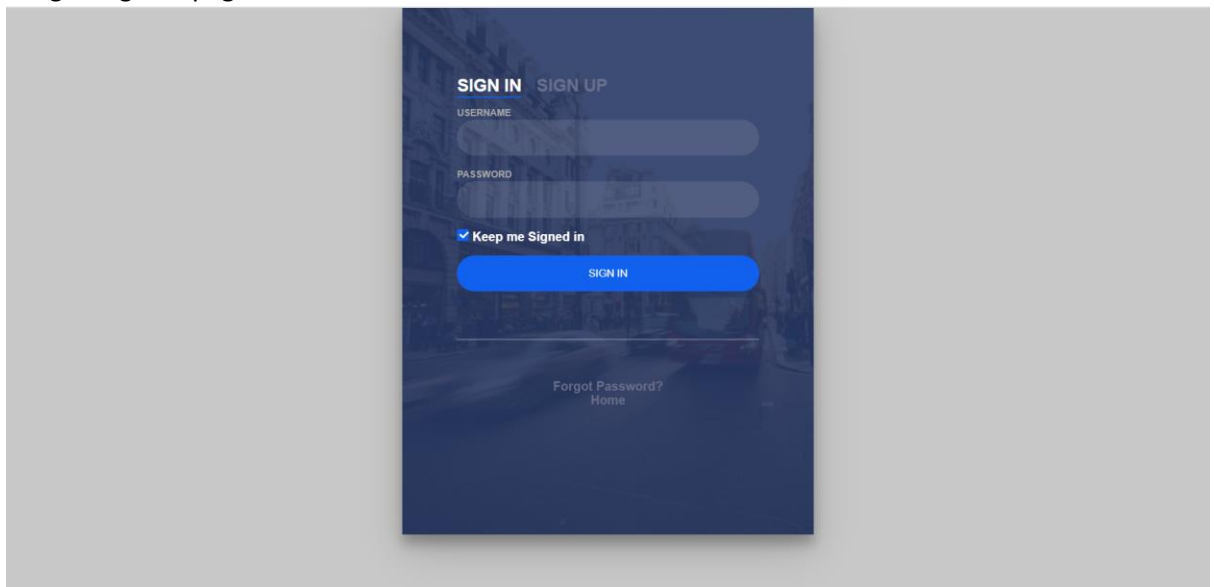

- Pada bagian backend ini terdapat 2 page, yaitu landing page dan login-register page

- Landing page

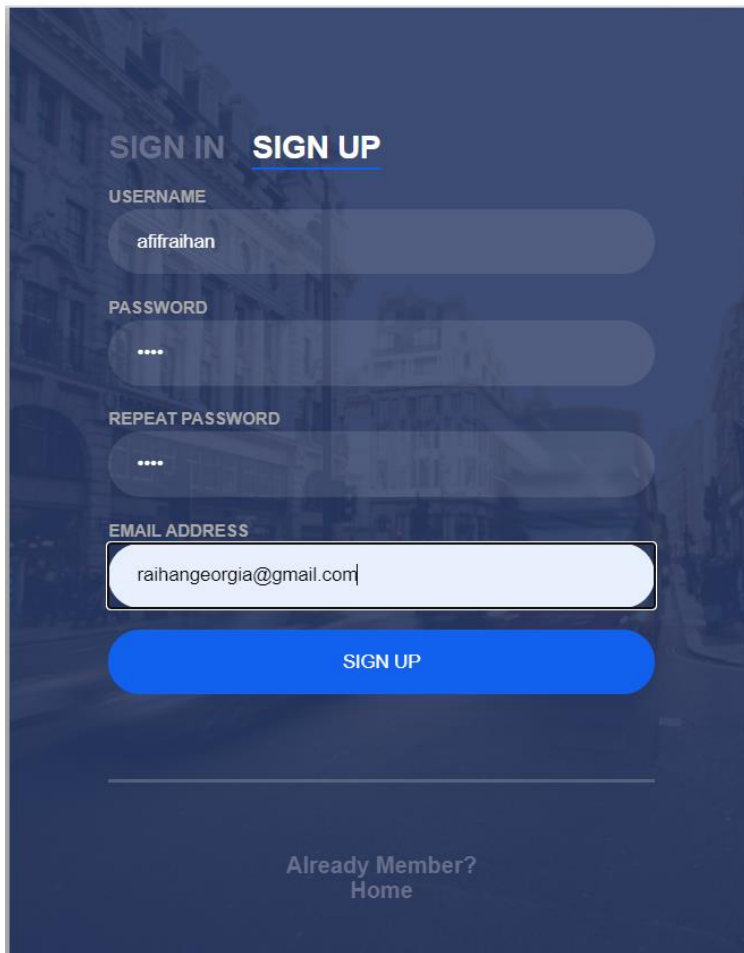

OUR TEAM

- Login-register page

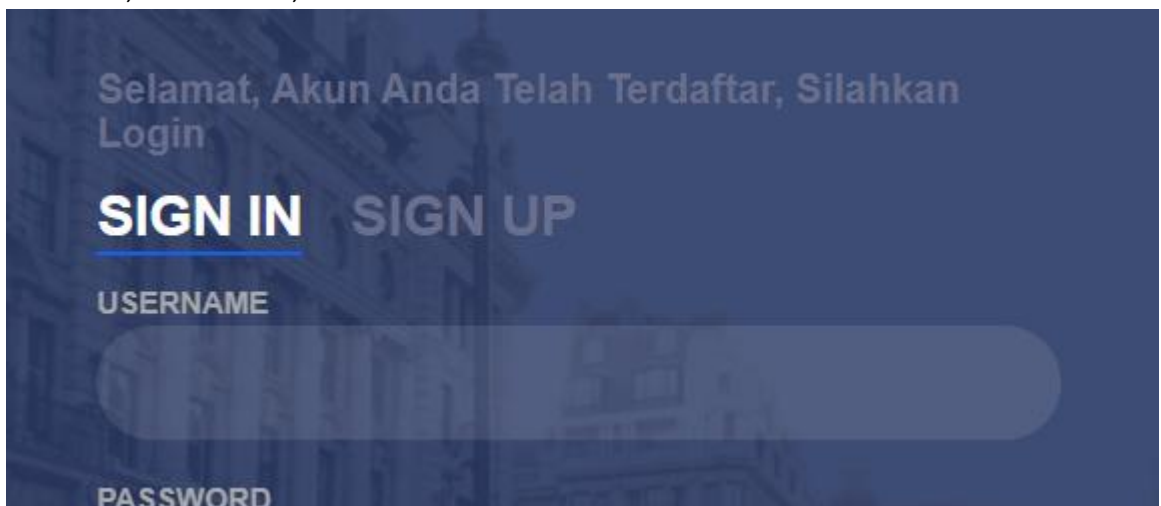

- Backend yang saya buat disini adalah proses register, login, dan menampilkan data login session.
- Pertama, register, dengan username, password, confirm password, email, seperti tampilan berikut

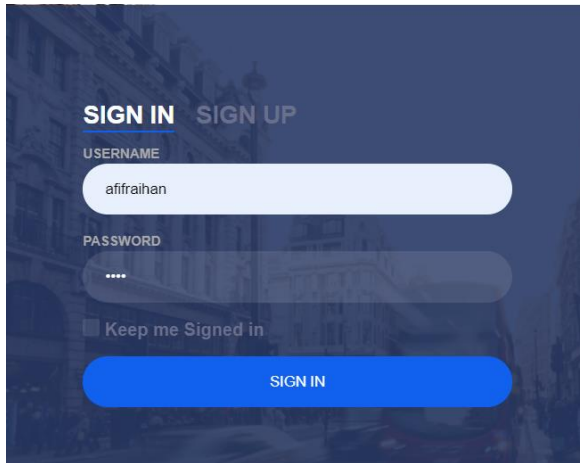

A sign-up form on a dark blue background with a city street image. The form includes fields for Username, Password, Repeat Password, and Email Address. The Username field contains 'afifraihan', the Password and Repeat Password fields contain 'pass', and the Email Address field contains 'raiangeorgia@gmail.com'. A blue 'SIGN UP' button is at the bottom. Below the button is a link 'Already Member? Home'.

dengan username “afifraihan”, password dan confirm password “pass”, dan email raiangeorgia@gmail.com, kemudian klik sign up

- Kemudian, akan muncul, tanda berhasil

A sign-in form on a dark blue background with a city street image. The form includes fields for Username and Password. The Username field is empty, and the Password field is empty. A blue 'SIGN IN' button is at the bottom. Above the button is a message 'Selamat, Akun Anda Telah Terdaftar, Silahkan Login'.

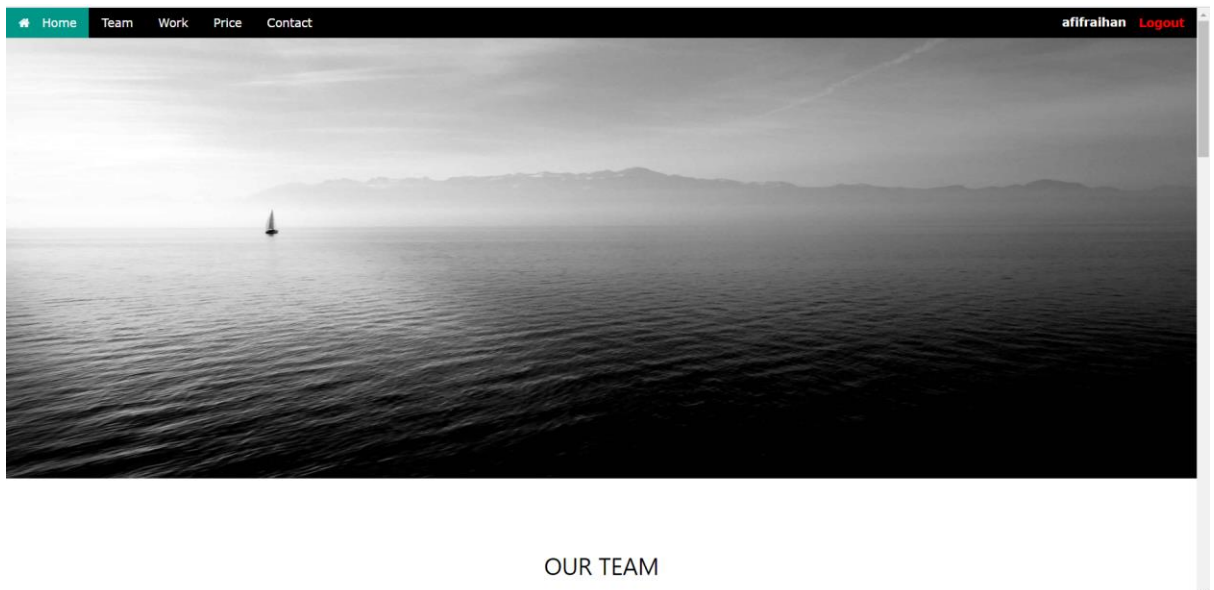

- Proses selanjutnya login, masukkan username dan pass, seperti berikut

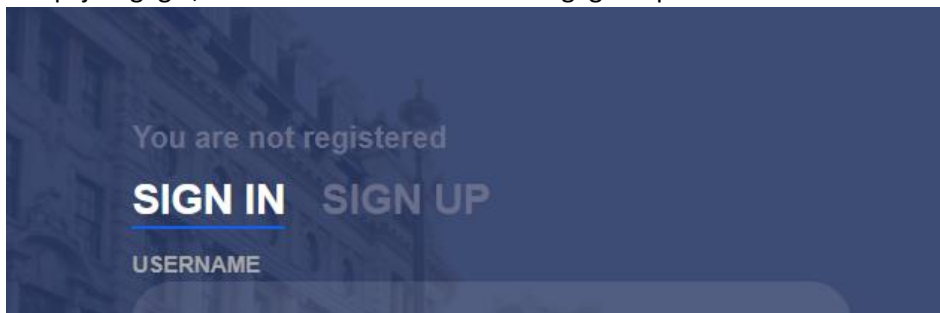

The login form is displayed on a dark blue background with a cityscape image. It features two input fields: 'USERNAME' with the value 'afifraihaan' and 'PASSWORD' with masked characters '....'. Below the password field is a checkbox labeled 'Keep me Signed in'. A prominent blue 'SIGN IN' button is at the bottom.

jika data terdaftar pada database, maka akan kembali masuk ke landing page dengan menampilkan nama user pada navbar seperti ini

tetapi jika gagal, maka akan memberikan alert gagal seperti ini:

- Dan terakhir logout, jika klik logout pada navbar akan dikembalikan ke login page
